Life Cycle Services

SCI®
A Sanmina Company

SCI KNOWS

In today's budget-constrained Defense & Aerospace environment, the need for product life extension is greater than ever. As military and commercial platforms age, the risk of obsolescence and reduced capabilities increases. This is why SCI remains firmly committed to providing a complete range of Life Cycle Services through a single point of contact.

CRADLE-TO-GRAVE LIFE CYCLE SUPPORT

SCI's Life Cycle Services Team

specializes in repairing, overhauling, redesigning, reverse engineering, and re-assembling legacy electronics and avionics for government and commercial air- and ground-based platforms worldwide.

WE SAVE THE U.S. GOVERNMENT MILLIONS EACH YEAR KEEPING LEGACY TECHNOLOGY ALIVE.

Services include:

- Complete overhaul of any type of circuit board or electronic assembly from the simplest design to the most complex, multi-layered SMT
- Reverse engineering of electronic systems or sub-system level
- Aftermarket and depot support for LRU- and system-level defense products
- Obsolescence refresh and health checks to mitigate risks and Diminishing Manufacturing Sources (DMS)
- Test services to include functional test development, environmental and EMI qualification
- Third-party logistics (3PL) – receiving, inventory, storage and shipment of customer items
- Returns management (RMA) – warranty and non-warranty for OEM partners and SCI products
- Spares production for sustainment operations

From NPI to obsolescence refresh, SCI's Life Cycle Services team does it all with unmatched quality and efficiency — all under one roof.

1,700+
Average number of annual assembly repairs

1
Point of Contact with end-to-end support

60+
Years of experience in Defense & Aerospace

CERTIFIED & COMPLIANT
SCI is fully CAS compliant and maintains a complete range of certifications for defense, and aerospace work

CAPACITY ON-SITE
Our 680,000-sq.ft. facility on a 100-acre campus in Huntsville, AL, provide all the space needed for on-site testing and repairs

THIRD-PARTY LOGISTICS
ESD & environmentally controlled warehouse & inventory management. Repack, Store, Pull, Value Add Service, Kit, Pack & ship.

TESTING CAPABILITIES
We maintain a wide range of in-house testing capabilities to include ESS, HALT/HASS, flying probe, and more

COMPLETE SUPPORT
We offer full product life cycle support from NPI to obsolescence refresh; plus, we're vertically integrated with Sanmina, our parent company

HEALTH CHECKS
Monthly maintenance checks on equipment to stay ahead on obsolescence refresh
