FOR IMMEDIATE RELEASE

**SANMINA-SCI PATHUM THANI, THAILAND FACILITY RECEIVES
NADCAP CERTIFICATION**

SAN JOSE, Calif. – December 15, 2009 – Sanmina-SCI Corporation (Nasdaq NM: SANM), a leading global Electronics Manufacturing Services (EMS) company, today announced that its Pathum Thani, Thailand facility has been awarded the National Aerospace and Defense Contract Accreditation Program (NADCAP) certification.

Nadcap is an industry managed approach to conformity assessment of special processes that brings together technical experts from prime contractors, suppliers and representatives from government to work together and establish requirements for approval of suppliers using a standardized approach.

“The Nadcap certification signifies that our Pathum Thani facility complies with all requirements for electronics manufacturing and special processes, and is a significant accomplishment for our Thailand operations as well as our defense and aerospace organization,” said CT Chua, Executive Vice President of South Asia Pacific Operations, Sanmina-SCI. “The Nadcap standard is fully integrated into our manufacturing process and ensures that we provide our customers with the level of quality and performance they require and expect from a world-class manufacturer.”

The Performance Review Institute (PRI) administers the Nadcap program. PRI convenes to coordinate industry-wide standards for special processes and products providing independent certification of manufacturing processes for the industry. PRI’s mission is to provide international, unbiased, independent manufacturing process and product assessments and

certification services for the purpose of adding value, reducing total cost, and facilitating relationships between primes and suppliers.

Currently, Sanmina-SCI has three manufacturing facilities with Nadcap accreditations in Huntsville, Alabama; Gunzenhausen, Germany; and Pathum Thani, Thailand. Additionally, each of these facilities are AS9100 certified.

About Sanmina-SCI

Sanmina-SCI Corporation is a leading electronics contract manufacturer serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market.

Recognized as a technology leader, Sanmina-SCI provides end-to-end manufacturing solutions, delivering superior quality and support to OEMs primarily in the communications, defense and aerospace, industrial and medical instrumentation, multimedia, computing and storage, and automotive technology sectors. Sanmina-SCI has facilities strategically located in key regions throughout the world. More information regarding the company is available at <http://www.sanmina-sci.com>.

Sanmina-SCI Safe Harbor Statement

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales to principal customers, the ability of Sanmina-SCI to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in the Company's fiscal year 2008 Annual Report on Form 10-K and the other reports, including quarterly reports on Form 10-Q and current reports on Form 8-K, that the Company files with the Securities Exchange Commission.
