

SCI Strengthens Community Ties with Donation to Local Veterans' Group

Combat Veterans Motorcycle Association supports Huntsville-area veteran organizations

HUNTSVILLE, Ala., August 23, 2016— SCI Technology, Inc. (SCI), a division of Sanmina Corporation, (NASDAQ: SANM), recently showed its support for both the local community and America's armed forces by making a donation to the North Alabama Chapter of the Combat Veterans Motorcycle Association (CVMA).

On Saturday, August 20, SCI Depot & Repair Director Greg Taylor presented CVMA Chapter 28-2 with a check at a ceremony in Huntsville, Ala. The local CVMA chapter is a 501(c) non-profit that is 100% focused on supporting veterans' causes in Huntsville and the North Alabama region. With about 70 members, CVMA 28-2 aims to raise awareness for the plight of POWs, MIAs and their families while creating and maintaining camaraderie among combat veterans from all branches of the U.S. military.

"Reaching out to the community is central to SCI's values, and working with the CVMA is ideal because all chapter funds go to local veterans in need," SCI President Mike Underwood said. "When we build a strong presence in the community and support our veterans, we strengthen not only the company but also the region in which we work and live."

Donating to CVMA underlines SCI's commitment to both the local community and the U.S. military. A leading defense and aerospace contractor, SCI proudly supports all of our nation's dedicated service members and recognizes the sacrifices combat veterans have made in the line of duty. SCI's additional areas of outreach include contributions to the United Way and funding for two scholarships at the University of Alabama in Huntsville.
