

TO SERVE
THOSE WHO
SERVE

PRODUCTS | SYSTEMS BUILD | LIFE CYCLE SERVICES

WHO WE ARE

SCI Technology, Inc., a Sanmina company, is a leading provider of high-reliability products and services for the Defense & Aerospace sector. Our heritage dates to 1961, when NASA engineer Olin King and two others founded Space Craft, Inc. in the basement of King's home in Huntsville, Alabama. Today, we are proud to be part of Sanmina, a global Fortune 500 technology leader with facilities strategically located in key regions throughout the world.

WHAT WE DO

Our three business segments – Products, Systems Build, and Life Cycle Services – work together to provide one complete solution for any Defense & Aerospace need. With capabilities including military and commercial avionics, tactical communications, counter-UAS, secure wireless intercommunications, vertically integrated manufacturing, and cradle-to-grave product life cycle support, SCI offers unsurpassed quality and reliability for a wide range of applications.

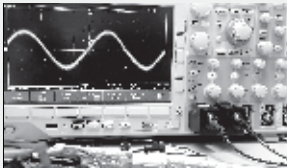

Products

Innovative, reliable and easy-to-use solutions for avionics, aircraft communication, counter-UAS, tactical intercommunications and more.

Systems Build

Vertically integrated manufacturing in our 680,000-square-foot facility, plus available end-to-end supply chain support.

Life Cycle Services

Comprehensive product testing, repairs, returns, redesign, logistics and reverse engineering, all through a single point of contact.

WHAT TO KNOW ABOUT SCI

MISSION & VALUES

We serve those who serve by providing innovative, trusted, and comprehensive products and services that meet and exceed the unique needs of the Defense & Aerospace sector.

We demonstrate value as our customers' premier solution-provider with an unwavering commitment to quality and dependability.

Collaboration - We value the power of teamwork as we pursue our collective goals

Loyalty - We build strong relationships by always being dependable and trustworthy

Ethics - We demonstrate integrity in everything we do

Accountability - We honor all of our commitments

Respect - We treat our associates and customers as we want to be treated

WHY SCI?

With more than 60 years of experience in the Defense & Aerospace sector, SCI has developed a unique combination of resources and expertise that enable us to deliver superior products and services to every customer.

Here are just a few of the advantages SCI has to offer...

- 680,000-square-foot facility with potential to accommodate surge/upside
- End-to-end product life cycle support with full depot & test capabilities
- Design, development, manufacturing and support in a single U.S. location
- Focus on building relationships, from acquisition to final delivery and beyond
- Fully staffed, multi-disciplinary engineering organization
- Vertical Integration with Sanmina Corporation
- Strategic location in a technology hub and low-cost region
